CC: George Purefoy, City Manager
Henry Hill, Deputy City Manager

Re: Approval of purchase orders to Securadyne Systems, Network Cabling Systems, Dell and Netsync Network Solutions to replace the existing camera and access control system for the Police Department and Detention Facility

The current camera and access control system for the Police Department and Detention Facility was installed in 2006 when the building was constructed and has reached its end of life. The system is failing regularly causing safety and security issues for both the Police Department and the Detention Facility personnel. Funds are budgeted in the FY 2017 operating budget to cover the cost of the project. The system will provide 24x7 recording of the Police Department, Detention Facility and parking areas around the building. It provides security monitoring for the department and recording of cells and common areas within the detention facility. This system provides detention officers the ability to monitor inmates for officer safety and inmate safety along with Police facility monitoring and recording.

Description	Vendor	Cost
In building cabling for system	NCS	\$33,725.85
IT Dell Server and Video Storage	Dell	\$32,974.16
IT Cisco Switch Equipment	Netsync	\$38,160.00
Video System Solution	Securadyne	<u>\$493,643.39</u>
Video System		
System Total Price		\$598,503.40
